LANGUAGE LAB

Educorp Language Lab is a traditional Solution in a computer room. The leading cutting edge technology of high video and audio quality, interactive activities like group discussion and conferencing can be conducted. We provide control functions such as session timings, various batches, respective lessons and monitoring of all student positions. Its unique feature being, the separation of Native Speakers and Students Voice along with pause|Play options, customizing each student learning. Teacher can view the video, text and also hear the sound of the assigned material.
